DETOX & WELLNESS

Detox is a wonderful journey of self-discovery! The process of Detox encourages us to cut down on consumption, realign our bodies and minds and refocuses us on what really matters – our health. It is an opportunity to clear a lifetime of toxic build-ups of pesticides, pollutants, pills, medication, stress and foods that our bodies are not able to break down. To get you started on your detox journey, we have put together a couple of detox ideas which will help you feel lighter, happier, more relaxed and energetic. Let us not forget that it also boosts our immune system immensely. The detox is a real gut cleanser and a healthy gut equals a strong immune system.
